Date-Sent: Tuesday, April 4, 2006 1:15 PM -0400

Dear Colleagues --

Thank you for being on our Expert Panel for the April 11th Campus Conversation. Over the next few days you will be getting background information on the Topic and more detailed information about the program and how to prepare for it.

At this point, I would like you to send me a paragraph on your title and academic work for use on the website and on announcements. You can use last semester's panel description as a guide -- go to <http://caae.phil.cmu.edu/cc/polls/Nov05/expert.html>

We need these descriptions by end of day on Wednesday. And thank you again for participating in this important event.

Expert Panel

Campus Conversation
April 11th, 2006

Moderator:

Erika Linke (University Libraries)

Panel:

William Brown (Biology/Faculty Senate)

Michael Bueti (Physics/Student Senate's Academic Affairs Committee)

Michael Chemers (College of Fine Arts)

Jennifer Church (Dean of Student Affairs)

Robert J Cavalier
Department of Philosophy
Carnegie Mellon
148A Baker Hall
Pittsburgh, PA 15213
412/268-7643 (O)
412/268-7641 (Fax)
HomePage: www.phil.cmu.edu/faculty/cavalier/
Thank you again for joining us on the Expert Panel. Background materials will be delivered to your offices today. Mike Bueti can pick up his copies at our office or at the Library.

The Expert Panel is critical to the success of a Deliberative Poll. Each of the small groups will generate two or three questions that have come up during the conversations. These questions will be asked by a representation from the small group. The Panel should respond as 'teachers' not pundits. You want to draw on your experience and your knowledge of Carnegie Mellon and its educational environment (including, of course, your personal experience and knowledge as they relate to the issue). This is not a debate format and you should feel free to indicate what others with different perspectives might say about your own perspective.

You need not feel that you must answer every question. Erika will also seek to keep the panel on target and on time.

If you are able to join the entire session, that would be great....and you would be able to listen in to discussions and draw about that when you address the plenary session. I know that Jennifer not be able to do this (due to a previous commitment), but I hope the rest of you will. This can be a very enlightening experience.

Below you will see the descriptions that I have so far. Bill sent his directly to me and the others I got from the web. Two are missing completely.

Please try to send any additions or changes to me today.

I'll send a follow-up message on Monday.

*********
Expert Panel
Campus Conversation
April 11th, 2006

Moderator:

Erika Linke
Associate Dean of University Libraries

Her current interests are building library collections; copyright, intellectual property and scholarly communication; and access to information and research resources. She received her Master's degree in Library Science from the University of Minnesota in 1978, and has been at Carnegie Mellon for 19 years.
Panel:

William E. Brown  
Professor of Biological Sciences  
Former Faculty Senate Chair 2004-05  
B.A. Chemistry, The College of Wooster  
Ph.D. Biochemistry, University of Minnesota

Dr. Brown has been involved in a number of administrative and academic functions while at Carnegie Mellon. A former department head, he has also served as chair of the Faculty Senate and is currently a member of the University Education Council. Dr. Brown has also taught Modern Biology and Biochemistry over the years and is currently involved in the development of a new online learning environment for Modern Biology through the Open Learning Initiative. He has an active research program targeted at understanding the structure function relationships of proteins with an emphasis on the characterization of markers of occupational asthma using newly developed molecular biosensors. A new direction for his research has involved a collaboration with Civil and Environmental Engineering on the understanding of the biodiversity responsible for bioremediation of persistent organic pollutants.

Michael Bueti (Physics/Student Senate’s Academic Affairs Committee)

Michael Chemers  
Assistant Professor, Drama

Jennifer Church  
Dean of Student Affairs

Church joined Carnegie Mellon in July 1995 as a residence life coordinator and one year later was promoted to assistant dean of Student Affairs under Murphy. She became associate dean of Student Affairs in 2000. Prior to coming to Carnegie Mellon, Church was director of housing and student activities at Yakima Valley Community College in Yakima, Washington, and an admission counselor and sorority house director at the University of Iowa.

Panel Moderator:

Gloriana St. Clair

Dean of University Libraries
www.library.cmu.edu/People/gstclair/
BA and PhD in English
Master, Library Science, University of California, Berkeley
Master, Business Administration, University of Texas, San Antonio.

In addition to her responsibilities as Dean of University Libraries at Carnegie Mellon, Dr. St. Clair is also director of the Million Book Project; a project whose goal is to bring a million books to the web free to read. She has edited the three major journals in librarianship: College & Research Libraries, Journal of Academic Librarianship, and portal.

Panelists:

Mara Harrell

Lecturer, Department of Philosophy
www.hss.cmu.edu/philosophy/faculty-harrell.php
B.A. Physics, Pomona College
M.S. Physics, UC San Diego
Ph.D. In Philosophy & Science Studies, University of California San Diego

Dr. Harrell’s main philosophical interests are in philosophy of science. Within this discipline, there are a variety of issues and problems that capture her attention. Her dissertation was entitled "Chaos and Reliable Knowledge", and used chaos theory to explore issues in reliabilist theories of knowledge. She also has research interests in the teaching of philosophy and has worked on the use of using rubrics in the grading of philosophy papers. She is currently engaged in experimentally determining the philosophical skills that our students learn in "What Philosophy Is" here at Carnegie Mellon. She also has a growing interest in the use of computers to teach philosophy. She has been involved in the development of an online course on Causal and Statistical Reasoning. She has completed an overview of computer-assisted reasoning software, and am working with students from the Human Computer Interaction Institute developing argument-diagramming software.
John Lerchey

Assistant Director for Incident Response in the Information Security Office
www.cmu.edu/computing/security/
AA, Visual Communication, Art Institute of Pittsburgh

Mr. Lerchey has been working in Computer Support at Carnegie Mellon since 1987. Around 1990 he began handling incidents of email abuse. Over the following years he divided his duties between Andrew workstation support and Computer Security Incident Response. Eventually, he dropped the workstation support responsibility and focused entirely on computer security and abuse issues. In 2004 Carnegie Mellon formed the Information Security Office within Computing Services. The ISO now consists of 6 people.

Suzie Laurich-McIntyre

Assistant Vice Provost for Graduate Education
www.ece.cmu.edu/directory/details/203
BS in Ceramic Engineering
PhD in Materials Science & Engineering, University of Washington.

From May 2003 to June 2005 Dr. Laurich-McIntyre was with the Electrical and Computer Engineering Department at Carnegie Mellon developing the Office of Alumni and Student Relations. Prior to coming to Carnegie Mellon, she was the Director for Women in Science and Engineering at the University of Washington, Seattle, WA. She is involved in numerous national organizations that focus on providing opportunities for women and underrepresented minorities to be active participants in science, engineering and technology fields. She worked in industry as a Ceramic Engineer in product development and manufacturing of high temperature materials.

Everett Tademy

Director for Diversity and Equal Opportunity Services
www.studentaffairs.cmu.edu/multicultural/everett.cfm
BS, Reed College
Master of Public Administration, University of Pittsburgh

In addition to his role Director for diversity and Equal Opportunity Services at Carnegie Mellon, Mr. Tademy was appointed university ombudsman in 1992 to act as a neutral party in the university's grievance process and assist staff in resolving conflict involving university policies, procedures and personnel. He is secretary for the President's Diversity Advisory Council helping the Council to work to define the problem and challenge of diversity, craft strategies for making progress and monitor that progress into the future. Mr. Tademy was appointed assistant director for university federal compliance and assisted in the coordination of university compliance reporting and responses to audits in the areas of civil rights. He has managed "at-risk" youth programs funded by the U.S. Department of Education and conducted research in the area of compensatory education. He has a direct reporting relationship to the President on all matters related to diversity.
